Objective

Motivated and dependable individual seeking an opportunity to contribute my skills, learn new processes, and grow professionally while providing excellent service and supporting organizational goals

Experience

- Richwell Colleges Incorporated** Oct 2025 - May 2026
Full stack software developer intern
 - Participated in the development, testing, and refinement of software applications based on project requirements and stakeholder feedback.
 - Planning the software development architecture, including database schema design, data flow, system architecture, and technology stack selection
 - Maintaining and upgrading the software following deployment
 - Managing the end-to-end life cycle for the production of software and applications
 - Overseeing the automated testing and providing feedback to management during the development process
- Lexie Staffing and Business Consulting** 2022 - 2023
Recruitment Associates
 - Assisted in end-to-end recruitment process, including job postings, resume screening, and scheduling interviews.
 - Conducted initial candidate screenings and coordinated interviews with hiring managers.
 - Maintained and updated candidate information in the Applicant Tracking System (ATS).
 - Supported offer letter preparation, employment contracts, and onboarding processes.
 - Ensured positive candidate experience through timely communication and feedback.
 - Generated recruitment reports and metrics to assist HR management decisions.
- Remote/ Freelance** 2023 - 2026
Software developer freelancer
 - Built solutions for businesses — from simple sales and inventory systems to capstone-level projects.
 - Focused on improving UX/UI based on client feedback, which helped me grow as a developer.
- Other Experiences** 2017 - 2022
Life Skills & Work Ethic
 - Before diving into software development full-time, I tried a lot of different roles — from tutoring kids, construction work, equipment handling, welding, aluminum assembly, masonry, vending, to labor work.
 - Each experience taught me discipline, adaptability, and a strong work ethic, which I carry into every project I build today
